

Field Service

Exceeding Expectations.

As the world-class leader in the measurement and sensing industry, GE Sensing & Inspection Technologies draws upon many technologies and resources to provide our customers with the highest quality of calibration and repair services.

As the manufacturer, GE provides both “Mail-In” and “Field Dispatch” service options. Our Mail-In service is provided through our “Center of Excellence” and our field service is handled by highly trained and skilled service engineers. We offer field service for following product lines:

- Validator 2000
- Digistrip
- Validator KL
- Portable

- Netpac
